AUGUST

Awakening to the Power Within

By Rev. Mary Ann Kelley

August is the one month out of the year when we have no official holidays. What's interesting is it is the month when the harvest season begins in the planes states.

There are many stories in my home state of Nebraska that say the summer months have no school so that the kids could help with the crops and with the harvesting in the fall. I know that my brothers did help some of the local farmers, but I didn't do that (cont. p. 3).

Greetings from Your Pastor

“Amazing Grace how sweet the sound” goes the song. These words were written by John Newton, (London: W.Oliver, 1779).

This is probably the most popular hymn in the English language. Perhaps it is because its words so well describe the author: John Newton as a slave trader before realizing the contact with his Christ within.

“I was blind but now I see!” John 9:25 for me the “blind” was not knowing that I had a Christ Connection. “I once was lost” but then I found TIC and “now I see” I AM in control and can change. “How precious did that grace appear the hour I first believed”. When I first made contact with my Christ within It was totally precious and filled with God’s grace – amazing.

Through any dangers, toils or snares I know I can turn within for guidance. I am never alone. If I need other assistance I call a Minister, Leader Teacher, or Prayer Therapist at TIC with which to counsel. There are many tools at Teaching of the Inner Christ to assist us in living a life of joy and peace. If we’ve had the classes and know the tools, let’s remember to use them. If not then let’s think about staying in class and reap the benefits. Let’s remember also that “It Is No Secret What God Can Do” Amazing, - God’s Grace is!

Love to all

Awakening to the Power Within (cont. from cover)

I worked at the local A & W Root Beer Stand, which was a whole lot more fun, I'm sure. In checking, I see there are five crops that are traditionally harvested in August of which I am familiar:

1. Tomatoes - Harvesting sweet, juicy tomatoes is a highlight of the growing year. Pick any that come off easily when lifted and twisted, but don't leave ripe fruits on the plant – they'll soften, split and rot.

2. Artichokes - The ideal time to harvest globe artichokes is just before the sizeable bud opens to flower. Simply cut off the heads using secateurs, which will encourage the production of further artichokes.

3. Cucumbers - Home-grown cucumbers are so much tastier than anything store-bought. Find out how to harvest cucumbers, in Monty Don's video guide.

4. Potatoes - Both second early and main crop potatoes can be harvested in August. This is also a good time to look out for potato blight – if spotted, harvest immediately. You may still be able to eat the potatoes, but never plant them, and be sure to burn any affected plants.

5. Plums - Plums should be at their best in August and September. Give the fruits a gentle squeeze, and if soft, they'll be ripe. Enjoy straight from the tree, or in puddings and preserves. Nature's abundance is becoming more evident at this time of year, when we are storing up for the coming winter months. I remember helping mom do the canning, and did some myself in earlier days. I just loved the plum jam, canned and frozen peaches, green beans, even tomatoes for stewing.

So, now you are ready to start your harvesting and putting up your winter food.

Thank you Wonderful God, for your bounteous generosity. And so it is, and so I let it be. Amen.

Blessings,
Rev. Mary Ann

“This book and audio will help you understand the functions of the major chakras, and esoteric methods for clearing them of fear. Your natural state is one of high energy, intuition, and creativity. You don’t need to add anything to yourself to enjoy these characteristics – you already own them within yourself. Just like a sculptor needs to chip away the parts of the statue that aren’t part of the ultimate creation, you only need to clear away fear to reveal your innate qualities.”
