### May "Mothers and Memorials"

*By Rev. Mary Ann Kelley*

May is our month of remembrance of those who have gone on before us. Memorial Day is a time we visit the resting places of the remains of our departed ones, and remember fondly the time we had with them.

(continued on p. 5)

After the Easter Season, we pass into the freshness and renewal of the month of May. April showers give way to the fragrant beauty of the May flowers. We also celebrate Mother's Day and the gift of life.

Mother's Day is often an emotionally charged holiday. For some, it brings up memories of joy and for others, sadness. And still for others, it falls somewhere in between. I always miss my mother, but more so on Mother's Day. I am reminded of the special person my mother was.

I learned so many lessons from my mother. She taught me how to give without expecting anything in return. Most of all, she taught me how to love.

Whether or not you know your mother's identity, or if she is alive or on the other side, or whether or not you are on good terms with your mother, it remains true that she gave you the precious gift of your life. I challenge each of us to have a special meditation on Mother's Day and give our gratitude for this precious gift of our life. Our gratitude for this gift has the power to evoke the deep healing of resentments, judgments and perceptions that keep us from experiencing our own inherent sense of wholeness.

Love and Blessings to all!  
Rev. Kayla Rose

Affirmation: I give thanks for the precious gift of life and love that have been given, and remember the healing power of gratitude.

## Around the Community

*The Teaching of the Inner Christ* is a precious Teaching for the world. In order to share this wonderful Teaching, let's move forward and spread the Word! Here's how:

- **Did you know that we have online classes?** Get in touch with Rev. Mary Ann Kelley (contact info. page 15).
- **Facebook Us: We are on Facebook at:**  
Teaching of the Inner Christ Outreach Online Ministry  
*- Share us with people that you know.*
- **Also, on our website we have a list of our videos of our Sunday celebrations** for people who cannot make it here.
- **To be a "leader" here at the Teaching is participating in our events, and/or helping out in a myriad of ways:** volunteering, stepping up in many ways; helping out in our bookstore, office work, etc. Do you have some skill that we could use here at the Teaching?

*Mothers and Memorials* (continued from cover)

We know that, while we miss them dearly, that they are just a thought away, and that they have fulfilled their destiny on this plane, having graduated to the next expression. How great it is to have the tools to help those who have left the body to go on to their new life on the other side of the veil; to call upon their Christ and I AM selves, an ascended master or one of the beautiful many to assist them, and to know that we will have loved ones when it is our time to return "home."

Meanwhile, we have other things that are ours to do. Those who still have mothers on this plain can visit with them, be it by telephone, Skype, or in person. How wonderful is the Great Mother who has created this life! For those of us whose mothers have made their transition, we can be with them in our meditative thoughts and still feel their love. Let us remember to give thanks for them giving birth to us, and for having their guidance in our lives.

And so it is!

Blessings to you all,

Rev. Mary Ann Kelley

*Your Mind Can Heal You*  
By: Frederick Bailes

A Clear and Concise Introduction to the Technique of Mental and Spiritual Healing

Through advanced research, the medical community now has a wide array of techniques, state-of-the-art tools, and knowledge that greatly enhance their ability to diagnose and treat illness. Despite these advances, the root cause of illness continues to mystify and challenge individuals in one form or another.

While stricken with a life-threatening illness, Dr. Frederick Bailes observed unhealthy emotional traits in himself and others that were deeply seeded not in the physical symptoms, but in the harmful emotions created by the human mind.
