"Contemplate the oneness of all things. In this sense of oneness, you can face any experience without fear." God's Will - Page 39, Brotherhood of the Followers of the Present Jesus, 1965

Divine Contemplation

As I contemplate the oneness of all things, it evokes a concept of endless growth and enlightenment. It allows movement from limiting beliefs and separation to full wholeness, in love, light, with full life which generates the ability to manifest and materialize the good and very good in the world at will.

Divine Intelligence assists us in our growth, in spirit, mind, and body. As we choose to align and unify with Divine Mind, it can become a grand opportunity for personal growth and enlightenment. "God's will" allow us the freedom to choose the mental vibration states needed to match, or be in congruency with Divine Mind. When our human thoughts are in harmony with divine vibration, It creates for us the desires of our heart.

It is up to us to select the right state of mind by choosing the right thoughts at the right time for the right purpose in the right way, to build a harmonious consciousness that will generate the right beliefs keeping us in tune with Divine Mind and thereby keeping us in tune with love, instead of fear.
