

Unity Candle Ceremony

(Need three candles, one for the bride, one for the groom, and a unity candle that they light together.)

I invite you now to come forward and partake in the Lighting of the Unity Candle.

Bride and Groom's names, having given yourselves to each other by your solemn vows and the exchanging of rings, symbolize now, your union by lighting the wedding candle as a sign that you are no longer two, but one. May your love burn bright and may your life together be a light in the world.

Bride and Groom light the Unity candle and say: "This candle is lit as a symbol of our unity before God. This is the light of our love."
